Future Consultations

The Chair requested that everyone respond to the Local Plan consultation. A Parish Newsletter will be distributed before the end of the consultation period.

The Report

All policies were reviewed and it was agreed that the latest version would be sent to John Slater with a number of questions, these will include advice as to what evidence is required and what would be "nice to have".

Environment - KT-K reported that the recent meeting with Hampshire and Isle of Wight Wildlife was constructive and we are expecting to receive the maps within the next few days. The Policies are sound and ready to be reviewed.

Built Environment – David Jackson has redrafted Policy BE03 and this has now been dropped into the latest version of the report.

Settlement Boundary –JA to review this section, particularly pages 5, 11 and 24. KT-K to email HWT to ask if they could adjust their maps to include the settlement boundary as defined in the latest map from David Jackson.

KT-K suggested that it would be helpful for a table to be produced showing the policies and what evidence is currently available together with monitoring indicators.

Landscape – the map of views to be amended to show the views more clearly, to include those from the whole of the Parish and not just from the Conservation Area.

Local Green Space – JA reported that there was a plan of these for Zebon Copse and that she would ask David Jackson if he could include green spaces in the rest of the Parish on this plan.

Date of next meeting: Monday 12th June 2017 at Zebon Copse Community Centre.

The meeting closed at 10pm.
